Art Unit: 1712

1. The following is an examiner's statement of reasons for allowance: In view of applicants' amendment and comments, the instant claims are neither taught nor suggested by the prior art. The Examiner agrees with applicants' position that, upon a complete review of the teachings in Hayase et al., the skilled artisan would not have had adequate motivation to select an aliphatic or alicyclic dianhydride. This is true particularly in view of the fact that the dianhydride must be combined with a specific -OH containing diamine and a particular siloxane diamine. The totality of the claims, including the specific transparency requirement, is neither taught nor suggested by the prior art.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
